## NURSING EXPERIENCE

### **Company – City, State (2009- 2011)**

Maintained full accountability for handling all aspects of day-to-day nursing operations in accordance with organizational goals. Conducted all facets of basic assessments, administered medications, and assisted the staff nurse with several patient assignments, further illustrating exceptional multitasking and prioritization skills.

- Successfully provided nursing care to pre-post-surgical patients in the neurological ward in collaboration with staff nurses and assistants.

### **Company – City, State (2008- 2009)**

Demonstrated communication and relationship building skills in overseeing the behavior of therapeutic groups.

- Developed and directed nursing care plans, instructed patients and their families in proper care, and helped individuals and groups take steps to improve or maintain their health.

### **Company – City, State (2001- 2018)**

Successfully supported doctors in maximizing performance and productivity while providing exceptional patient care in a fast-paced, time-sensitive environment requiring superior critical thinking and organization skills. Performed a broad spectrum of duties, including working with the staff nurse to monitor progress of laboring patients and interpreted fetal heart rate.

- Actively assisted with patient evaluations; observed, assessed, and recorded symptoms, reactions, and progress.

### **Company – City, State (1994- 2000)**

Oversaw all facets of patient medical history and assessments, ensuring accuracy and timely completion. Conducted in-depth research and analysis regarding patient goals, objectives, and overall requirements; utilized results to determine needs.

- Reviewed, researched, and drafted various documents involving patient progress, and contributed to the presentation of health education classes held every month for immigrant women.
